CHRIS WARREN

Software Engineer

A developer who specializes in front-end web and mobile design & development. I've helped a multitude of clients design & build unique solutions to accentuate their business or process.

EXPERIENCE

CW Technologies, LLC — **Remote**
Software Engineer — **08/2022 - Present**

- ❖ Constructed & designed multiple e-commerce and social networking apps for clients in **React Native**
- ❖ Designed & built several e-commerce websites & tied them to the respective apps
- ❖ Built & designed a host of social networking & payment gateway sites for HOA clients using **React**
- ❖ Assisted in the creation of best practices for design leading directly to clients saving money (~ $3k a month) or time (~ 15 hours a week)
- ❖ Created apps for **Android**, **iPhone**, & **cross-platform** functionality using **React Native**

Key achievement

Worked with multiple clients to build technology solutions that worked. I worked on assessing the risks involved & develop risk management strategies that would help them evolve & grow.

SwagCheck, Inc. (Contract) — **Remote**
